

# How to use these templates

You have three emails, ready to send, plus a Facebook post and an Instagram post, ready to share. Each one is its own file. Add your link and your name, then send. Use each one as written. Do not change the wording.

## Use only approved versions

---

1. **Every piece must be approved before you use it.** Use only the versions in this kit that Aflac Advertising Compliance has reviewed and approved. Each approved piece carries its own form number and expiration date. Do not use a piece after it expires.
2. **Changes need approval first.** If you want to change any wording, or create your own email, post or graphic, submit it to Advertising Compliance at Aflac HQ and wait for approval before you use it.
3. **Follow the Social Media Guidelines.** Everything you post on Facebook, Instagram or any other social site must follow the Aflac Social Media Guidelines.

## Do this once

---

4. **Get your unique link.** You will paste it into the button in each email. Every application through it is credited to you automatically. There is no code for anyone to enter.
5. **Test your link before you send.** Paste it into a browser. Confirm it opens your Tier One Direct page, your name shows, and the apply button works on a phone.

## Every time you send

---

1. **Email:** open the .html file you want to send from the Emails folder (General or Cancer) in any browser, select all (Ctrl or Cmd + A), copy, and paste into a new Gmail or Outlook message. The formatting comes with it. Add a subject line (suggested subjects are in the table below).
2. **Add your link:** click once on the button words (such as “See What’s Offered” or “See How It Works”). In Gmail, choose Change. In Outlook, right-click and choose Edit Link. Paste your unique link and save. NOTE: if Edit Link does nothing in Outlook, choose Remove Link, select the words, press Ctrl + K, and paste your link. If the words turn dark, set the font color to white. Before you send, hover over the button to confirm it shows your link. Otherwise the button goes to the general Aflac page and you are not credited.
3. **Personalize:** replace [First name] with the person’s name, replace {{YOUR\_NAME}} with your name, and replace [Your business mailing address] in the footer with yours. Then send.

## Posting to Instagram and Facebook

---

1. **The graphic is finished.** The files named “image to post” are images (for example, General Instagram - image to post.png and General Facebook - image to post.png). There is no name or link printed on them, so there is nothing to edit on the graphic itself. Just upload the image as is.
2. **The words go in the caption, not the image.** Open the matching “caption to copy” file, copy it, and paste it into the post as your caption. That is where you add {{YOUR\_NAME}} and, for Facebook, {{YOUR\_LINK}}.
3. **Instagram links work differently.** Instagram does not let you put a clickable link in a caption. That is why the graphic says “link in bio”: go to your Instagram profile, edit it, and paste your unique link into the bio link field. Do this once, then it is live under every post.
4. **Facebook links go right in the post.** Paste your link where {{YOUR\_LINK}} appears in the caption. Facebook turns it into a clickable link and a preview card automatically.
5. **Want to change the words on the graphic itself?** Any change to an approved graphic must be submitted to Advertising Compliance at Aflac HQ and approved before you post it.

## What to replace

| PLACEHOLDER                     | REPLACE WITH                                                                                                                                         |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| {{YOUR_LINK}}                   | Your unique Tier One Direct link. In emails, paste it in place. On Instagram, put it in your bio link instead. On Facebook, paste it in the caption. |
| {{YOUR_NAME}}                   | Your name, as you want it signed.                                                                                                                    |
| [First name]                    | The recipient's first name (per message).                                                                                                            |
| [Your business mailing address] | Your business mailing address, in the email footer.                                                                                                  |

## The files

|                                                                                                                    |                                                                                                                  |
|--------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Email 1 - Tell people you joined Aflac</b><br>Subject: Some news                                                | <b>Email 2 - Reach out to someone you thought of first</b><br>Subject: You came to mind                          |
| <b>Email 3 - Short note with your link</b><br>Subject: 2 minutes when you're free                                  |                                                                                                                  |
| <b>General or Cancer Instagram - image to post + caption to copy</b><br>Instagram image and caption, ready to post | <b>General or Cancer Facebook - image to post + caption to copy</b><br>Facebook image and caption, ready to post |

Each email is an .html file for a formatted paste (a PDF copy is included to view), with General and Cancer in their own folders. Each social post folder holds an image to post (.png) and a caption to copy (.pdf).

**Credit is automatic.** If someone uses your link to apply, it counts for you. There is nothing they need to type in and nothing to remember.

Before you send. Personalize [First name], and use your own link and name in every message. Do not change any other wording.

Emails and posts you share are a solicitation of insurance. Include an unsubscribe option and your business mailing address in marketing email. Every email and post must be approved by Advertising Compliance at Aflac HQ before you use it.

Tier One Direct offers limited-benefit supplemental insurance underwritten by Tier One Insurance Company. Tier One Insurance Company is part of the Aflac family of insurers. In California, Tier One Insurance Company does business as Tier One Life Insurance Company (NAIC 92908). Aflac® and the Aflac Duck are trademarks of American Family Life Assurance Company of Columbus.
